experience

2016-present Designer Global HELP Seattle, WA As the sole designer for this small, high-impact nonprofit, I design a wide variety of print and digital materials. I led the redesign effort on Global HELP's website to increase relevant traffic, improve the site's bounce rate, and create a structure to support the organization as it expands its services. As a result of my efforts, site activity increased by 61% and the bounce rate dropped from 54% to 20%.
